

A full-page photograph of a worker in a red protective suit and helmet using a high-pressure water spray gun on a metal structure. The worker is positioned in the lower half of the frame, with the spray gun nozzle directed towards the right. The background shows a large industrial building with corrugated metal siding and a metal ladder structure. A dark, diagonally striped banner is overlaid across the middle of the image, containing the text 'WORKPLACE SAFETY SOLUTIONS'. Below this banner, a white rectangular box contains the text 'UNDER DEVELOPMENT'. In the lower right quadrant, there is a red shield-shaped logo with white vertical stripes and the letters 'TST' in white. Below the logo, the text 'SAVING LIVES' is written in a dark, sans-serif font.

SAVING LIVES

## OUR VALUES

### TRUSTWORTHINESS

Through our actions and our products we shall instil a high level of confidence in our customers, suppliers and business partners.

### LONG-TERM APPROACH

In our internal and external relationships, we shall be considered a long-term partner. Our products shall be developed and marketed with a long-term profile, where we want to see customers and suppliers staying with us year after year.

### DEVELOPMENTAL

By continuously developing our products and working on innovative new solutions, we will bring products to the market that are of the highest class. Collaborations with universities and suppliers at the forefront of textile materials and treatments are a matter of course for us.
